

Acknowledgements

The production of this document would not have been possible without the contribution of many people. The WHO Tobacco Free Initiative would especially like to thank Dr Göran Boëthius of the Doctors Against Tobacco for preparing the concept paper which served as the basis for this document, as well as Dr Tania Cavalcante of the Tobacco Control Program at the National Cancer Institute, Ministry of Health, Brazil, for her reviews and invaluable comments.

The WHO Tobacco Free Initiative further wishes to thank the Ministries of Health, the WHO Collaborating Centers on Tobacco Control, the Health Professional Organizations and all institutions and individuals who provided valuable inputs during the development of this document. WHO would also like to thank all the people and organizations and individuals that have allowed us to use their images for the production of this booklet. Copyrights of such images remain within the organizations and individuals that produced them.
